

OVERVIEW OF SITE ACTIVITY

Upcoming Activities

- The ground for the parking lot and main access are being leveled to prepare for asphalt.
- Campus perimeter retaining walls are being erected over the next several weeks.
- Completion of the metal roofing is targeted for the beginning of June.
- PEPCO and other utilities will work to install upgraded service to the new building during June and July.

Working Hours

- Approved work hours are 7 A.M. to 7 P.M. Mondays through Saturdays (except Holidays).
- Construction vehicles will be parking on the construction site. Trucks will not be allowed to idle, and muddy wheels on construction vehicles will be washed before entering public roads.

PROJECT IMAGES

At the end of April, the Mamie D. Lee project workers celebrated the turning point in the construction project of placing the last steel beam on the roof of the building with a Topping Out Ceremony. A ceremonial steel beam was painted white for workers and school leadership to sign their names to acknowledge this project milestone.

Photos of the site taken in April and May of 2016
